Chemical manufacturing industry leader Carroll Company, promotes Doug Bishop to Director, Plant Operations

Garland, Texas — Carroll Company, the nation's leading manufacturer of private branded institutional cleaning and maintenance chemicals, has named Doug Bishop, Director of Operations. Effective immediately, Bishop has been selected to drive the productivity, efficiency and quality of manufacturing operations for all of Carroll Company..

Most recently, Bishop has been Carroll's Director of Business Development, managing the company's largest portfolio of customers. Prior to Carroll Company, Doug had almost a decade of military service, including positions of increasing responsibility including Plans & Operations Assistant within the Joint Directorate of Military Support (JDOMS) and Section Sergeant within the United States Army.

In almost five years, Bishop has successfully built internal and external relationships to assist the company in driving customer growth, increasing revenue and improving the customer experience. "Doug has extensive expertise in creating and executing on successful game-changing strategies within strategic accounts. His understanding of the industry and Carroll's products and manufacturing processes, uniquely positions him to assist Carroll in growing the business through direct and indirect distribution channels." said Chris Norgren – EVP, Chief Revenue Officer.

Bishop holds a Bachelor of Science, with a specialty in Psychology from Florida State University.

About Carroll Company

Founded over 95 years ago, Carroll Company has become the nation's leading manufacturer of private branded institutional cleaning and maintenance chemicals. Carroll is a registered EPA (FIFRA) manufacturing organization, operates FDA approved facilities, follows documented Good Manufacturing Processes (GMP), is OSHA and UN/DOT compliant and is approved by the Orthodox Union as a Kosher manufacturer.

Carroll Company's headquarters and main manufacturing facility is located in Garland, Texas. The main plant is situated on 18 acres with 300,000 sq. ft. of manufacturing and warehouse space, with 28 dock high doors and a rail spur.
