**Challenge:** Keeping non-porous surfaces clean and germ-free

**Solution 1: Prime Source Mint Kleanse Disinfectant/Deodorizer/Cleaner**

Mint Kleanse cleans and deodorizes while leaving a fresh mint fragrance. Ideal for use in nearly all healthcare, institutional, and commercial sanitation programs for the control of disease and odor-causing germs. May be used on almost any washable surface, including porcelain, tile, enamel, metal plastic, laminates, resilient floors, and painted surfaces. Will not dull or remove detergent resistant floor finishes and waxes. This quat-based ammonium disinfectant is effective against bacteria including Salmonella, Choleraesuis, Pseudomonas Aeruginosa, Staphylococcus Aureus, E-coli, and Streptococcus on hard surfaces. Also effective against HIV-I (AIDS virus), Herpes Simplex Type 2, Influenza A/Brazil, Aspergillus Niger, and Candida Albicans when used in accordance with label directions.

**Solution 2: Prime Source Nu Quat Neutral Disinfectant**

A concentrated, neutral pH, multi-purpose germicidal cleaner and deodorant for use on non-porous surfaces such as floors, walls, metal surfaces, stainless steel, porcelain, and plastic. Ideal for use in hospitals, nursing homes, schools, colleges, and many other public facilities. Pleasant fragrance combats odors in the air, while the disinfectant works to destroy odor-causing bacteria at the source. Quat-based formula is effective against the pathogenic bacteria Psuedomonas seruginosa, Staphylococcus aureus, and Salmonella choleraesius in the presence of 400ppm synthetic hard water (calculated as CaCO) plus 5% organic serum. When used in accordance with label directions, effective fungicide, mildewstat, and virucide against many viruses including HIV-I (AIDS virus).
