

Challenge: Keeping uncarpeted floors looking like new

Solution 1: Prime Source Mirage High Gloss Finish

This ultra-high solids floor finish is a tough and flexible metal cross-linked acrylic, formulated to dry to a brilliant gloss. Buffing is not required to bring out a shine. A single coat is so continuous that it acts as a sealer and finish, making a second coat unnecessary in most instances. Since this finish is non-yellowing and detergent resistant, high traffic areas can be recoated as desired without stripping. Removal of this finish is easily accomplished by using an active amine or ammoniated floor stripper. Our very best floor finish.

Solution 2: Prime Source Super Strip-Eez Liquifying Stripper

A true "no-rinse" stripper designed to save time and money. Product uses a concentrated solvent system that re-dissolves the floor finish rather than breaking the polish loose from the floor. Super Strip-Eez quickly penetrates, emulsifies, and liquifies multiple layers of floor finish for complete removal. Since the product contains no caustics it leaves behind no alkaline residue, so neutralizing with water is not needed before applying new coats of finish.

Solution 3: Prime Source Reflections 250 High Speed Floor Finish

This combination sealer/polish utilizes the latest in polymer technology to deliver a wet-look finish with outstanding durability. The unique polymer system provides ease of use and even application onto both resilient and most non-resilient floors. Resulting finish is burnishable for easy maintenance. Perfect for high traffic areas in supermarkets, hospitals, nursing homes, hotels, schools, universities, or any facility where high gloss and slip resistance are important.

Solution 4: Prime Source Reveal Non-Ammoniated Stripper

This general purpose cleaner may be used to clean floors, counters, walls, and most other washable surfaces. Use to clean surfaces such as plastic, vinyl, metal, glass, laminates, and more. May be applied by trigger sprayer, mop, or automatic floor scrubbing machines. Film- and residue-free cleaning makes this product ideal for use in schools, offices, institutions, and other public facilities.

Solution 5: Prime Source Dazzle Bright Gloss Finish

Innovative technology makes this terpolymer finish easy to apply, slip resistant, with no unpleasant odor. It forms a polyethylene-fortified, continuous film with an internally plasticized, low pH polymer. Maintain a high gloss by simply damp mopping and buffing as part of a regularly scheduled maintenance program.
