E-2 Bruté

SANITIZING HAND CLEANER

This hand soap is a one-step hand cleanser and broad spectrum sanitizer. It cleanses the skin thoroughly, rinses freely and leaves hands feeling soft. It gently cleans with a creamy lather, even in hard water.   This product is a sanitizing hand soap that is USDA E2 authorized for use in all federally inspected meat and poultry processing plants. It is recommended for use prior to handling food or food processing equipment.   Unlike other liquid and bar soaps, this product sanitizes the hands as they are washed with an antiseptic agent that reduces transient bacteria counts from the skin. Ideal for use in healthcare facilities and childcare facilities where hand sanitizing is a concern. This formula provides protection equal to 50 ppm chlorine against both Staphylococcus aureus and Salmonella typhi.

FEATURES	-	RELATED BENEFITS
Contains chloroxylenol	-	Sanitizing hand soap
Synthetic based hand soap	-	Will not leave soap film on sinks
Premium synthetic detergents	-	Creates rich, copious lather
Enhanced with skin emollients	-	Provides mildness to skin
pH balanced	-	Gentle to skin, designed for frequent use
Ready to use, antimicrobial liquid	-	More sanitary than regular bar soaps

AREAS OF USE -
- Hotels, motels, campgrounds
- Hospitals, patient rooms, nursing homes, health care facilities, clinics
- Schools, offices, child care centers
- Restaurants, retail, transportation, and public facilities
- Any application where skin bacteria needs to be killed

TO USE -
Ready to use. Wet hands and apply soap to work up a creamy lather. Then thoroughly rinse. **See label for complete directions and use only as directed.**
